

PPEEQQ sunglasses and lenses comply with the safety requirements listed in the European Directive (EU)2016/425. The sunglasses also meet the requirements of the EN ISO 12312-1:2015 standard. PPEEQQ sunglasses and lenses aim to protect the eyes from the unpleasant effects of sunlight.

We do not recommend the use of sunglasses in conditions of impaired vision or at night. PPEEQQ sunglasses are not suitable for direct viewing of the sun or for protection

USAGE & MAINTNANCE

against light from artificial light sources, such as sunbed lamps. PPEEQQ sunglasses are not suitable for protection against explosions or impacts that could break the glass.

Store PPEEQQ sunglasses in the supplied case at a temperature between 10 and 35 degrees Celsius. Clean PPEEQQ frames and lenses with cold or lukewarm water and mild soap and dry them with a soft cloth.

USER'S GUIDE

1. Use one hand above the nose wing to hold the lens firmly in place. Hold a firm grip on the middle part of the frame with your other hand. Pull the lens away from the frame and also release the outer corners of the lens from the frame.

Removing the lens

Removing the nose wing

1. Click the nose wing in the middle part of the lens

Placing the nose wing

Placing the lens

2. Hold the lens firmly and then push the nose wing with your thumbs away from the lens.

2. Place the outer corners of the lens in the frame. Guide the lens through the cutouts in the middle part of the frame and push until you hear and feel a click.
